Microsoft SQL Server-based Data Integration Solutions

Codeless Integration | Flexible and Easy-to-Use | Cost-Effective | Unparalleled Performance

A leading integration solution provider, KingswaySoft, offers sophisticated software solutions that make data integration affordable and straightforward. Thousands of enterprise clients from over 90 countries rely on their no-code SSIS Integration solutions to integrate data with various application systems to drive business efficiency and leverage information assets.

EXTRACT

Retrieve only the data you need from easily selectable table, entity, object or service endpoint, offering the most advanced filtering capabilities, when available.

TRANSFORM

Implement complex transformations between source and target systems to help achieve advanced integration scenarios.

LOAD

Control how data should be written to a target system through create, update, upsert, delete, and other unique write actions with support for many advanced features and easy data mapping.

KingswaySoft data integration solutions allow developers to take advantage of the flexibility and power of the SSIS ETL engine to integrate virtually any application or data source. The solutions take care of all the intricate details so you do not have to.

SSIS Productivity Pack

KingswaySoft

Easily Integrate Virtually Any Application or Database System

* Eliminate the need for writing custom scripts for some commonly-encountered complex requirements in SSIS.
* These Premium SSIS components expand on native SSIS components to offer new features with improved performance and greater ease of use.
* The SSIS Productivity Pack saves time and offers significantly greater potentials when implementing solutions using SSIS.

Premium Data Flow	Premium ADO.NET	Premium Aggregate	Premium Conversion	Premium Derived Column
	Premium Excel	Premium Lookup	Premium Slowly Changing Dimensions	
Big Data	EDI Source	Hadoop	HDFS	Premium Data File
Cloud Storage	Amazon S3	Azure Blob Storage	Azure Data Lake	Azure Files
	Box	Dropbox	Google Cloud Storage	OneDrive
Conversion	Composition	Decomposition	Value Mapping	
Data Generation & Anonymization		Data Anonymizer	Data Spawner	
Data Quality & Comparison		Address Verification	Data Profiler	Diff Detector
		Duplicate Detector		
Data Warehousing	Google BigQuery	Snowflake	Premium Slowly Changing Dimension	
Encryption & Compression		Compression Task	PGP Encryption Task	Premium Hash
Google Services	Google Ads	Google Analytics	Google BigQuery	Google Cloud Storage
	Google Sheets			
HTTP/Web Services	HTTP	Web Service		
JSON/XML Processing	JSON	XML	HTML Table Source	
Mail Components	Email	SMTP		
Message Queue	Premium Message Queue Task	AMQP	Amazon SQS	
	Azure Service Bus	IBM MQ/WebSphere	MSMQ	RabbitMQ
NoSQL	Amazon DynamoDB	Apache Cassandra	Azure Tables	CosmosDB
	Elasticsearch	MongoDB		
Premium File Pack	Premium Flat File	Premium File System	FTPS/SFTP	WebDAV
Premium Task	Premium Expression	Premium File Properties Task	Timer Task	
Template Merge	HTML Merge	Text Merge		
Timing & Automation	Azure Functions	SSH Task	Time Zone Conversion	Timer Task
